

Operating Instruction

ORE PROCESSING MACHINE

Henan Hongxing Heavy Machinery Co., Ltd.

Major Equipment

01

Ore dressing equipment is mainly composed of trommel screen, disk feeder, pendulum feeder, chute feeder, steel balls, ceramic balls, ball mill, flotation machine, magnetic separator, vibrating feeder, mixing bucket, high frequency screen, spiral classifier and so on.

The Performance Characteristics of Ore Dressing Equipment:

- Movable, can be made of excavators and loaders drag.
- By a host to towing screening equipment and hydraulic set work in double harness, compact structure.
- Gold car runs three series, can handle 50-500 tons of ore by respectively.
- Easy operation, saving the cost for you.

Production Line

02

We will always serve customers by the service tenet of to be responsible for every procedure; for every machine and every customer. We will do our best to get your satisfaction. We firmly believe that we can get sincere repay with our sincere dedication.

Magnetic Separation Process

The new type of ore beneficiation production line is mainly composed of jaw crusher, ball

mill, spiral classifier, magnetic separator, ore concentrator and dryer machine.

This production line is suitable for the wet magnetic separation of materials whose

granularity is below 3mm such as magnetite, pyrrhotite, calcined ore and ilmenite.

Flotation Separation Process

This ore beneficiation production line is mainly composed of jaw crusher, ball mill, spiral classifier, mixer, flotation machine,

ore concentrator and dryer machine; and combined with ore feeder, bucket elevator and belt conveyor.

This production line has the advantages of high efficiency, low energy consumption,

high processing capacity and economy and reasonable structure.

About Hongxing

03

Henan Hongxing Mining Machinery Co., Ltd. is a large-sized joint-stock enterprise integrated with the scientific research, production and sales of heavy mining machinery. It is located in high and new technology industrial development zone, Zhengzhou with an area of 200,000 m².

Our company regards quality as life and customers as God, and always follows the quality principle of being responsible for every procedure, every product and every customer and serves the customers with heart and soul. All of our products have passed the authentication of ISO9001 international quality system and the "Hongxing Brand" equipment manufactured by our company has been awarded as "China Famous Brand". Reliable and stable product quality makes the production and sales amount and all the comprehensive economic indexes of our company lead the domestic mining machinery industry and our products have been sold to more than 30 countries and areas.

HXJQ[®]

China Largest Mining Machinery
Manufacturer

- **Pre-sale services: enthusiasm**

We provide you with the prophase plan, process flow design and manufacturer equipment according to your special demand.

- **Sale services: servant**

Send technicians to the jobsite for guiding the installation and adjustment, training operators and finishing the check and accept together with you.

- **After-sale services: faithfulness**

To establish long term friendship, we will regularly pay return visit to customers. Supplying technique, building design, instruction , installation
